### U Can Hatch Us - Bookings

#### Claim Your Date

The program runs from Monday of week 1 to Friday of week 2 and includes one weekend. By the end of week 2 the chicks are almost ready to start jumping out of the brooding tray and their down has started to turn into feathers.

Delivery times vary depending on where we have our bookings for that particular week. We will try to work around your times if we know in any particular good or bad time. We will set everything up for you and show you what to do. We can be contacted at any time if you have any questions or concerns.

The price is \$253 for Perth areas, but slightly more for surrounds. Please check with us for an exact quote. Payment is collected on delivery of the eggs.

The display requires power for the incubator and heat lamp. Please ensure that NO ONE turns the power off while the eggs are in the incubator.

Handle With Care

#### Amazing Chicken Fact

An egg is made up of 75 per cent water, and the yolk is 51 % water. See [here](#) for more.

#### Want to chat about chicks?

Get cracking on our [weblog](#) to find out more about hatching or to just have a chick chat.
