WA-owned company

Hatching experts

The WA-owned business offers two-week chick and duck hatching programs to schools, libraries, child care centres, kindergartens, nursing homes, businesses, houses and any other venues.

When you enquire or book U Can Hatch Us, you will deal directly with Judy Howe.

Judy has a hobby farm in the Perth hills and lives with her husband and young children. She has been employed by veterinary clinics and has always worked with animals.

She took up breeding chickens, ducks and geese about six years ago and took over U Can Hatch Us in April, 2009.

U Can Hatch Us is the perfect way for Judy to share her passion for nature and love of animals.

Judy values opinions and feedback and is happy to hear from current, past and new customers. She will continue to supply a high quality, hands-on educational experience at an excellent price.
